Skilled web developer proficient in front-end and back-end technologies. Passionate about creating responsive, user-friendly websites and applications.

Skills

- Programming Languages: HTML, CSS, JavaScript, PHP, Python
- Frameworks/Libraries: React, Bootstrap
- Databases: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, VS Code
- Additional Skills: Responsive Design, REST APIs, Problem-Solving, Development

Projects

1. Portfolio Selling Website (React + Bootstrap)

- Developed a fully responsive portfolio selling website using React for the front end and Bootstrap for styling.
- Implemented user authentication, product listings, and a shopping cart for seamless user experience.
- Integrated REST APIs for dynamic content rendering and data fetching.
- Designed a modern and intuitive UI/UX to enhance user engagement.

2. Responsive Gaming Website

- Built a gaming website that allows users to download and play games directly on the platform.
- Utilized HTML, CSS, and JavaScript to create an interactive and user-friendly interface.
- Ensured cross-browser compatibility and mobile responsiveness for optimal performance.

3. Real-Time Chatting Application

- Designed and developed a real-time chatting application using Java for the backend and Socket Programming for networking.
- Implemented a client-server architecture to enable seamless communication between users.
- Focused on performance optimization and secure data transmission.

Education

Master of Computer Application (MCA - FY) - Vishwakarma University, Pune (Pursuing)

Bachelor of Business Administration in Computer Application (BBACA) - Savitribai Phule Pune University (CGPA: 8.6)
